PRELIMINARY AMENDMENT

Technology Center 2600

Prior to examination on the merits, please enter the following amendments in the above-identified application.

IN THE CLAIMS

Please amend the claims as follows. Applicants present the claims as amended below and encloses a separate sheet indicating the amendments to the claims with bracketing and underlining.

1. (Amended) In a telecommunications transmission system using a DMT system as multicarrier system and having at least two VDSL systems, each comprising a pair of modems, said at least two VDSL systems belonging to a single binder group common to the at least two VDSL systems, a method in said DMT system for keeping DMT frames aligned to a same frame timing comprising the steps of
- estimating the time mis-alignment and power of cross-talk DMT signals added to a received DMT signal when the estimate is used by the modem to synchronise its own frame timing to a main cross-talkers frame timing;
